AMERICA FOR AMERICANS

McKINLEY AND WILSON ABOARD.

In 1850 William McKinley was burned in the English manufacturing city of Sheffield; but in 1894 William L. Wilson was dined and wine in London because he is the author of a Free-Trade Tariff Bill. These are significant facts.

At the M. and L. Tollgate polls two years ago the vote for Congressmen was:  
Democratic . . . . .117  
Republican . . . . .61  
Total . . . . .178  
This year it was:  
Democratic . . . . .116  
Republican . . . . .95  
Total . . . . .212

Here's a Democratic loss of 1—that probably went to the Populists, and a Republican gain of 34. We will wager our last summer's crop for a copper that if the Editor of THE LEDGER, or any one else, will search for the next twelve months he will not be able to find 95 legal Republican voters in the bounds of the Precinct named—Bulletin.

Will Br'er Mansel never recover from his attack of fustian? Here he is again "damning" his Democratic brethren in the face. There isn't a more sincere Christian gentleman or a truer Democrat in the county than the clerk at this polling-place during the recent election. THE LEDGER doesn't believe that Mr. GEORGE W. SCHLAESE is idly by and permitted 34 or any other number of illegal votes to be cast for the Republicans, the Editor of THE Bulletin to the contrary notwithstanding.

ADVICES from New York are to the effect that gold in that market is at a premium of a small fraction of one per cent. Why is this? The amount of gold sold at a premium was small, and the whole of it was purchased by parties

who desire to buy Government bonds that bear interest at the rate of three per cent. or less. There may be constituted out of this occurrence a scarecrow, but it is one of very small dimensions, and will hardly last over the few days preceding the National Thanksgiving anniversary.

Furthermore, says THE Commercial Gazette, it is the outcome of bad National financing. The pretended purpose of the sale of bonds exclusively for gold is to build up the gold reserve, but the real purpose is to make up deficiencies in the National revenue. When an individual finds his income deficient, as compared with his expenditures, there is but one way to settle matters, and that is to sell assets, if he has them, or borrow money. The Government holds no assets; it sees the candle burning at both ends, and therefore it rushes into the market to borrow money, and in this process it discards its own obligations, and demands gold in payment for bonds, hence people who want to purchase three-per-cent. bonds are willing to pay a small premium on gold for the purpose of making payments in that exclusive currency. In 1890, or in the closing years of President BUCHANAN'S Administration, the Government needed money, and it was compelled to pay equal to twelve per cent. per annum for its use. Now in the closing years of Mr. CLEVELAND'S Administration, notwithstanding bad management, the Government is able to borrow money at equal to three per cent. per annum, and people, in order to secure that loan, are paying a small premium on the gold.

This occurrence furnishes conclusive evidence as to the credit of the Government, and nothing can impair this credit except most reckless and incompetent management of public affairs. The people of the United States in 1890 turned the Democratic party out of power. The result was not only the maintenance of the Union, but the re-establishment of the credit of the Government. This three-per-cent. measurement of the National credit is the result of thirty years of Republican control of affairs. There has not been, since the close of the war, a deficit in the National Treasury. On the contrary, there has been a surplus that caused the retirement to a large extent of the National debt.

Now mark the contrast. Within two years, under Democratic management, and under the influence of Democratic threats, the gold reserve has been broken down, the current receipts are not proving equal to current expenditures, and the bonded debt is being increased under conditions that threaten the credit of the Government, and would threaten and disturb it very seriously but for the fact that everybody has learned from the voice of the people, expressed through the ballot-box, that Democratic mismanagement, while it has not reached its end, is nearing it.

The temporary premium on gold, therefore, means nothing except that people having confidence in the Government are anxious to purchase three-per-cent. bonds.

Is not this an argument, if we are to have further loans, or if we are to refund outstanding loans upon maturity, in favor of a popular loan that shall be payable in lawful money? Why should the Government discriminate against its own currency? If gold must be had to build up a gold reserve, let the customs duty be sufficient to meet the expenses of the Government, honestly and economically administered. This policy would solve the problem so far as the National Treasury shall be concerned. This having been accomplished, Congress can proceed, without tinkering or fustian, on producing another, to reform, so far as reform may be found necessary, the currency system.

One year of absolute Republican control in National affairs would serve to place the country in its industries, in its finances, and in its National resources, on the high road leading to solid confidence and growing prosperity.

GOVERNOR BROWN'S Thanksgiving Proclamation is brief. Here it is:

PROCLAMATION.  
COMMONWEALTH OF KENTUCKY.  
EXECUTIVE DEPARTMENT.

In observance of a long established custom, I respectfully recommend that Thursday, the 29th day of November, be set apart as a day of Thanksgiving and Prayer by all citizens of our beloved Commonwealth. For God's mercies let us return thanks, and obey his law by doing charities and kindness to the needy and afflicted.

That's all there is of it, saving the usual form of where and when done and the signature of the doer.

The Governor must have had in mind the late Kentucky Democrats who should return thanks that they are alive, while his invocation is evidently directed to the Republicans, who are adjured to be charitable and kind to the needy and afflicted fellows who are so soon to walk out into the political snowstorm.

**ADVICE TO TARRANTIERS.**  
New York Sun.  
Beware your guests, gentlemen, every man of you, as soon as Mayor Strong is officially subdued to receive them. We fancy that the afternoon of New Year's Day, early the next morning, will offer an occasion that you may embrace for the purpose, with a becoming combination of dignity and cheerfulness. Don't wait for the hand of the new Republican Legislature to be laid smartly upon you for the purpose of your expiation. Stand not upon the order of your going, but go at once. There are a dozen or more of these combinations of dignity and cheerfulness. Mr. Strong knows them, and we advise them all to be polite to him, and resign.

## CLAIMS FRAUD.

Dr. Sampson Pope, Independent Candidate for Governor

Of South Carolina, Petitions the Legislature for Investigation.

He Alleges the Election Was Illegal and Was Conducted in a Manner Violative of State and National Constitutions—Pope Claims He Can Prove It.

COLUMBIA, S. C., Nov. 28.—Dr. Sampson Pope, the independent democratic candidate for governor, who opposed John Gary Evans in the last election, petitioned the general assembly, which met here Tuesday, for an investigation into frauds alleged to have been committed in the last election in the interest of John Gary Evans.

He says that he would have had a large majority of the votes. He sets forth as a preliminary that the election was illegal and conducted in a manner violative of both the state and federal constitutions. He alleges that intimidations and physical force were used to drive many thousands of legal voters from the polls, and that many legal voters were deprived of the right to vote upon technicalities, and that many managers abstracted the ballots from the boxes and supplied their places with Evans ballots.

Dr. Pope charged: "These frauds, intimidations and acts of violence committed by supervisors, managers and partisans of John Gary Evans were committed at the immediate instance of county chairmen of the democratic party, who in turn received their instructions from John L. M. Irby, chairman of the state executive committee of the democratic party, and United States senator, and from B. E. Tillman, governor of the state of South Carolina."

Dr. Pope alleges that if he gets power to summon witnesses he can prove all his allegations.

### FAITH CURISTS.

Another of the Hazzard Family Stricken With Smallpox.

ALLIANCE, O., Nov. 28.—Rev. J. N. Hazzard, of Deerfield, father of the late Hazzard, the faith curist who caught the smallpox in New York city a month ago while praying for the recovery, at the bedside of a victim of the loathsome disease, is taking sick with the smallpox Tuesday. Rev. Hazzard is a minister in the United Brethren church, and is also, like his son, a firm believer in the Christian science doctrine.

He makes the third victim of the dread disease in his household, his 15-year-old granddaughter having been stricken with it a week ago. The little girl is recovering under the skillful treatment of the village physician. Young Rev. Hazzard is also recovering health in the next room without the aid of a physician, and lays his recovery wholly to his belief and practice of Christian science.

Rev. Hazzard refuses to see a physician, and says he is gaining and will recover by his faith in prayer. Owing to the strict quarantine being maintained around the premises by the township authorities, it is believed that the dread malady will not spread outside of the Hazzard household.

### A Fight Reported.

EL RENO, O. T., Nov. 28.—Late dispatches Tuesday night over the military wire from Ft. Sill to this point announce a fight between the Canadian City gang of express robbers and their pursuers. In the fight Tuesday morning it is reported that two of the bandits were killed and three of the pursuing party disabled, one being killed.

### Fatigued Thieves.

LIMA, O., Nov. 28.—For some time this city has been bothered by robbers. About two weeks ago the Troy Steam Laundry was broken into and about \$1,000 worth of laundry was taken. The chief of police traced the robbery to the Crates brothers. Monday evening their residence was searched and the goods were found. The man was tried and bound over to the grand jury.

### Refer Will Probably Be Forfeited.

COLUMBIA, O., Nov. 28.—Among the applications of a Thanksgiving pardon, to be issued in accordance with the annual custom, is that of George Ruffer, who was implicated in the tanyard murder at Cincinnati nineteen years ago as an accessory after the fact.

The Kansas City Public Building. The interior finish and general design of the building will remain as originally intended.

## THE INDIANS.

Secretary Smith Wants to Know What They Are Good For.

WASHINGTON, Nov. 28.—Secretary Smith has addressed to all Indian agents the following circular letter:

"I desire you to report to me at the earliest practicable date the condition of the land of the reservation under your charge, agriculturally and from a mineral standpoint; the amount of stock owned by the Indians and the amount and kind they are capable of doing; the climate and the kinds of grain and agricultural products raised, or that can be produced; whether the lands are best adapted to agriculture or stock raising, and every detail that will give the department such information as will enable it to know intelligently what development your reservation is susceptible of; also, the possibility of making your Indians self-supporting, and in your opinion the best method of doing so. Further, you will please state the number of houses on the reservation and of the Indians living in them and of Indians living in tents; the number of traders and the sort of goods they cultivated and of the Indians working them, and generally the resources of Indians (horses, cattle, etc.) and whether any of them are capable of managing their own affairs and how many of them have taken allotments."

### VACATION FOR BANK CLERKS.

Practical Suggestions Made by Controller Eckels.

WASHINGTON, Nov. 28.—Controller Eckels has been asked to levy an assessment on the stockholders of the Shoe and Leather bank of New York to make up the embarrassment of Seelye and Baker, which impaired the capital of that bank. Mr. Eckels, in talking about the New York sensation, says he does not blame the national bank examiners, nor can any be laid on him. It was impossible for him to have discovered the robbery under the circumstances. Mr. Eckels, in talking about a remedy for all such cases, said that every bank should insist upon every one of its employees taking a vacation once a year, no matter whether they wanted to or not, and this would give the chance for a look at the books and make it impossible for a like occurrence. Many banks insist upon the vacation system, and not one of them suffers. "Make all the employees go on a vacation, and change the bookkeepers about," said Mr. Eckels, "and there will be no big embezzlement temptations for them."

### To Boon the Navy.

WASHINGTON, Nov. 28.—The most important recommendation made by Secretary Herbert in his annual report to Congress, authorizing the construction of three great battle ships of about 10,000 tons displacement each, is to construct of armament not exceeding \$4,000,000 each and twelve torpedo boats from 100 to 300 tons each, at the discretion of the secretary, to cost not exceeding an average of \$170,000. Since his last report five splendid ships have been added to the naval list, three of which are capable of speed in excess of twenty-one knots, while two of them are the fleetest cruisers in the world.

### Wild Turkey for the White House.

WICKETRY, R. I., Nov. 28.—President Clark will have a twenty-five pound wild turkey for his Thanksgiving dinner if nothing happens. Horace Cole, a well-known poultry dealer, has started the turkey for the white house as it has been his custom to do for several years just preceding Thanksgiving. A turkey was also sent to the postmaster-general, but the name of the donor was not given.

### To Keep Police Out of Politics.

ATONA, ILL., Nov. 28.—Chiefs of police of the leading cities of the state assembled here Tuesday to consider a bill to be laid before the legislature to separate the police from politics. The plan is to provide for police boards and the chiefs of police are the result of the police from political contamination and at the same time a higher standard of manhood and discipline.

### Cholera in Brazil.

## SILVER CONFERENCE.

Free Silver Leaders Meet in St. Louis to Formulate Plans.

St. Louis, Nov. 28.—A conference of free silver leaders from all parts of the United States is being held here. Among the prominent champions of the white metal in attendance are Geo. A. J. Warner, of Marietta, O., president of the American bimetallic league; M. Devine, Nebraska, secretary; Congressman Bryan, Nebraska; Congressman Sibley, Pennsylvania; H. E. Taubene, Streator, Ill., national chairman; people's party Gen. J. B. Weaver, Iowa; Al Maxwell, chairman of the state people's party committee, Illinois; Judge C. Cole, Iowa; Col. Shinn, Kansas; and Congressman R. H. Bland, Missouri.

The session Tuesday afternoon was held behind closed doors. To a United Press representative Gen. Warner said: "This conference is called to decide upon our future plans. If we are to have a gold standard in the United States, and the world over we want to know it. This conference is of grave importance to the welfare of silver."

The conference is called at this time to formulate the friends of silver who are in attendance at the Trans-Mississippi congress.

## KOLBITZ ARMING.

Leaders Issue a "Veto Call" for Volunteers to Set Kolb.

BIRMINGHAM, Ala., Nov. 28.—It has been learned that certain hot-headed Kolbitz leaders in several North Alabama counties have issued secret calls for armed men, in companies of from 100 to 200 men, to meet at Montgomery on inauguration day, next Saturday, to help to set Kolb as governor.

The calls urge the Kolb followers to "maintain their rights and carry out the will of the people," and it is said that companies are being organized.

It seems so great is the apprehension felt that armed guards have been placed over the military arsenal to prevent a possible raid upon the arms and ammunition by Kolbitz. All the troops in the state have been arranged to go to Montgomery, and it is understood that they will carry this right organized.

Gov. Jones says that while he anticipates no trouble, the authorities are well prepared to stamp out thoroughly any disorders that may occur. Kolb will not be arrested unless he commits some overt act, or collides with the constituted authorities.

## SLOW, BUT SURE.

A Monument to Mark the Birthplace of Washington Jones to Be Erected.

WASHINGTON, Nov. 28.—Twenty years ago congress delegated to the secretary of state the duty of selecting the most appropriate means of marking the birthplace of Washington Jones, Va., seventy-five miles below this city, on the Potomac river, and \$11,000 was appropriated for this purpose.

The monument, however, has been delayed, owing to the absence of facilities for the transportation of materials, but the completion of a site survey by the government is now well advanced. Plans for the monument and proposals will be opened on December 15.

Chief of Graham has decided that a shaft of Graham granite high enough to be plainly visible from passing vessels, a distance of five miles, will be the most appropriate monument, but its exact design and inscriptions have not yet been determined.

Internal Revenue Ruling.

WASHINGTON, Nov. 28.—Commissioner of the internal revenue bureau, under the approval of Secretary Carlisle, issued a circular, which in effect prohibits distilleries from placing upon barrels the name of any other bona fide distiller. For some time past it has been the custom of certain distillers to use the name of another distiller, to place the name of such customer upon the barrels as they themselves were the distillers. In such cases the distiller actually rents the distillery for a certain period and so comes within the law.

The Census Incomplete.

WASHINGTON, Nov. 28.—It is stated by officials of the census bureau that unless the next session of congress makes an early appropriation, the census force will cease work on December 15, leaving the census incomplete. It is expected, however, that an urgency deficiency appropriation bill will be passed before that time and will include a sufficient amount for the completion of the census.

Killed His Sister's Lover With a Blow.

KANSAS CITY, Mo., Nov. 28.—Frank Howard Tuesday struck his sister's lover, John Neillman, because the latter would not return a ring she had given him. Howard is in jail charged with murder. Neillman Tuesday died of the night from the effect of the blow. The dead body is but seventeen years old, and his sister is twenty-two.

Charges Her Husband With Malpractice.

PARKERSBURG, W. Va., Nov. 28.—Dr. H. P. Scofield, an elderly man, was arrested Tuesday morning upon a charge of malpractice, and Tuesday afternoon preliminary trial was placed in jail in default of bail. His wife, to whom he is married, Tuesday morning was arrested upon a charge of malpractice, and Tuesday afternoon preliminary trial was placed in jail in default of bail.

Fourteen-Year-Old Murderer.

CHATTANOOGA, Tenn., Nov. 28.—As the result of youthful viciousness John Bradley, a well-known young man of this city, was found dead Tuesday night to death by his companion, Ed Jackson, aged 14. Both are believed boys, employed at Salsola's slaughter pen, in this place. They were taken over the possession of a cow's tail.

Arrested on Assault.

### England Refuses to Recognize Nicaraguan Sovereignty Over

#### The Mosquito Strip, and a British Vessel Will Be Sent to Bluefields.

President Cleveland Orders Several United States Vessels to the Gulf of Mexico for the Protection of American Interests.

MANAGUA, Nov. 28.—The Nicaraguan government has been informed by the British minister, Mr. Gosling, that Great Britain has refused to recognize Nicaraguan sovereignty over the Mosquito Strip, and Mr. Gosling has sent to Port Limon asking that a British warship be sent to Bluefields. In pursuance to instructions the Nicaraguan minister at Washington, Mr. Guzman, advised the United States government of Great Britain's action, and he was informed that Ambassador Hayard had been instructed to lay the matter before Lord Lansdowne.

WASHINGTON, Nov. 28.—As a result of a conference at Woodley, Tuesday, between the president and Secretary Hayard, the minister of the United States has been for several weeks at Kingston, Jamaica, was called peremptory orders to proceed at once to Bluefields for the protection of American interests.

Mr. Gresham's visit to the president's country home followed immediately upon an interview he had with the Nicaraguan minister. All the officials acquainted with the affair refuse to discuss the matter, and they are said to be to the Columbia, or to confirm statements from Panama in regard to a refusal of Great Britain to recognize the Nicaraguan government.

It is learned, however, on excellent authority, that not only the Columbia, but the Marblehead, which arrived at Kingston Tuesday, will remain, while Bluefields this winter, and that the Montgomery may be sent there from Mobile, and that preliminary orders have been sent to the Columbia to have all the ships in commission of the North Atlantic squadron prepared for a West Indian cruise at the earliest possible moment.

In addition, the sailing orders for the San Francisco, which was to leave December 15 to become the flagship in the Caribbean, have been withheld, and she may be sent immediately to the Gulf of Mexico.

The Castine's cruise to the South Atlantic, which was to commence early next month, will in all probability be interrupted when she reaches the West Indies. Instructions to prepare the Minnesota for sea at once have also been sent to navy department chiefs.

There seems to be in fact almost a complete cessation of the diplomatic activity about by diplomatic rumors to the effect that Great Britain, which, several months ago, expressed willingness to discuss the dispute over the Mosquito strip, has now a disposition to resent what appears to be the practical annexation of that territory and its complete incorporation as a portion of Nicaragua. As long as the inter-oceanic canal will seem under favorable consideration at the last session of congress, Great Britain remained quiescent in the Mosquito controversy, and as a result of conference which were held at Washington, Lord Rosebery's cabinet conferred to receive a special envoy from Nicaragua, whose mission related directly to the abrogation of the treaty, which gave Great Britain a guardianship over the now almost extinct tribe of Mosquito Indians.

The envoy, it is understood, has been in London for some time, but when congress adjourned without acting upon the canal bill the negotiators of the canal committee of the senate went to England in September last to seek money, and the suggested abrogation of the treaty with Great Britain has been put in the background.

Not until Tuesday was it definitely learned that Great Britain had declined to recognize the legality of the new order of things on the Mosquito coast, and that it had so notified Nicaragua, although such action had been anticipated for several weeks, which accounts for the fact that the Columbia and Marblehead were not long ago brought home.
